KINEMETRICS
Advancement through Innovation

OasisPlus

Earthquake Business Continuity

Uninformed decision-making during an earthquake increases the potential for panic, injuries, and costly downtime.

OasisPlus is a technology platform designed to provide the tools and information you need before, during, and after an earthquake to control impact and ensure business continuity.

- Avoid unnecessary evacuations and business process interruptions to secure ongoing critical operations
- Enable better-informed decision making during an earthquake to assure continuity of operations
- Protect your brand from damage associated with mishandling of emergency situations
- Minimize expensive downtime and distress

Delivering Business
Continuity

ADVANCED SENSING TECHNOLOGY

Implement advanced sensing technology to acquire essential data during shaking, and rapidly deliver actionable information to key decision makers, regardless of location.
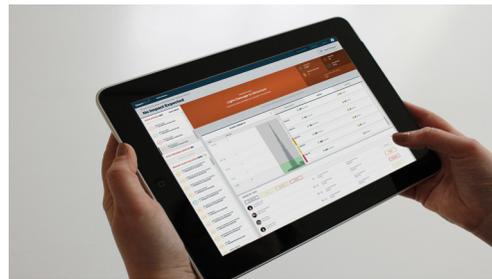

MANAGEMENT CONSOLE

Real-time information from sensors, injury & hazard reports, and occupant check-ins are presented via the console, enabling your response team to better manage the situation.

MOBILE APP

Occupants check-in, report injuries or hazards, and receive instructions from your team via the mobile app, simplifying communication to help occupants stay safe.
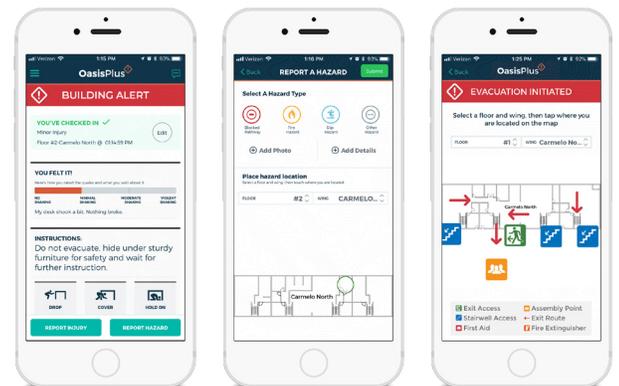

PLATFORM FOR INFORMED DECISION MAKING

OasisPlus delivers critical information you need to be confident in your decisions, provides situational awareness through real-time data, and promotes effective coordination and communication.
